Two Great Programs

Advance Care Card

Revolving credit establishes a specific line of credit that remains available. During the interest free period, a payment of 2% of the balance balance is required each month. This payment is applied to the principal, After the interest free period, payments increase to 2% of the remaining balance plus the assigned interest rate.

My Medical Funding

Installment loans have specific terms of 24, 36, 48, or 60 months and a set monthly payment due each month.
